The work tasks of the committee

- Introducing environmental and community needs which the college departments can offer for the society .
- Providing scientific, technical and training directions for the external entities in order to achieve the community engagement principles .
- Assessing academic staff participations through offering community services and measuring the beneficiary entities satisfaction from the community services which are offered by the university .
- Assessing the events in the college, such as open day and career day, and communicating with the alumni to ensure the strong relationship with them, those will be achieved by a coordination between the community engagement administration and alumni office in the university .
- Preparing a time-plan every academic year showing the cooperation training by working with the external entities .
- Communicating with the external entities to achieve the plans of cooperation training and community engagement goals .
- Assessing students' performance and training entities and intending to overcome any obstacles that might face the training process .
- Reviewing all referred documents from the college dean in order to give opinions and necessary recommendations in this regard.
